

# Home Learning Term 2

Complete one task each week and post on Google Classroom or complete at home and bring it in to share with us.

## Science

Go on an electricity hunt around your home – how many things can you find that use electricity. Record your findings however you wish!

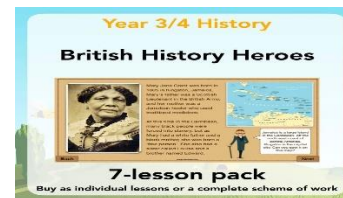

## Art

Paint a picture of something you like in your local environment.

## History/English

Write a fact file about a British History Hero of your choice.

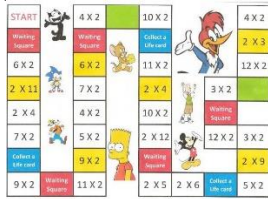

## Maths

Practice your times tables at home, either online by playing times table rockstars or maths frame or by playing a game/ writing them down.

## Maths

Make your own times table game to practice one times table that you find challenging. It could be a card game or a board game.

## Science – Sound

Have a go at making your own string telephones. Go onto Youtube and watch a video to help you.

## Science/English

Think about the dangers of electricity and make a 'keep safe around electricity' poster that we could display in school.

## Mindfulness

Take a walk in the park/woods and have fun stamping, crunching, and kicking up the autumn leaves!
