

## Year 2 colour

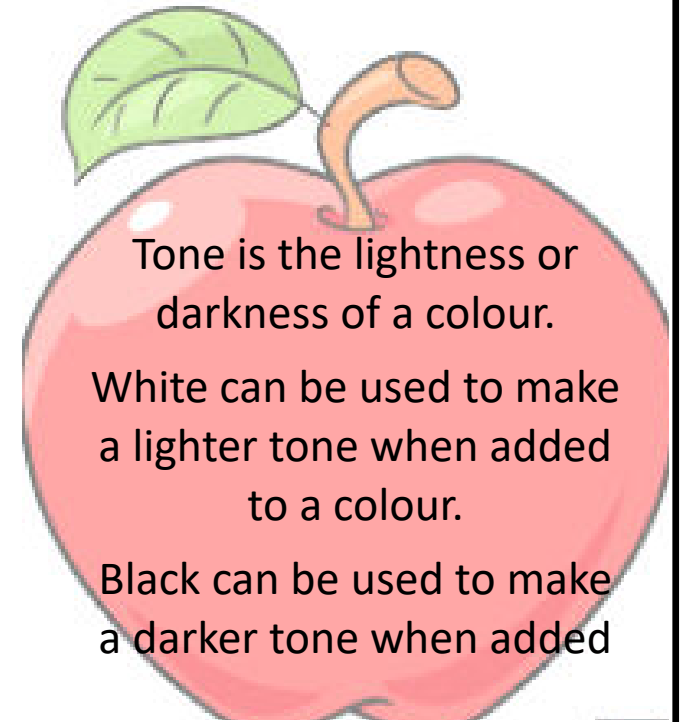

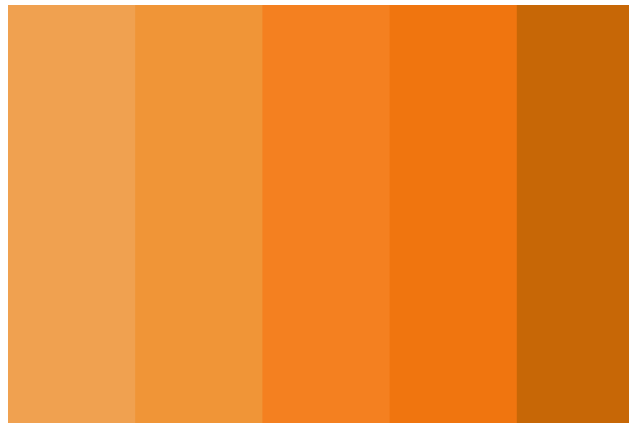

**colour** the way artists use different shades (like red, blue, yellow, and green) to make pictures

**tone** how light or dark a colour is.

**hue** synonym of colour.

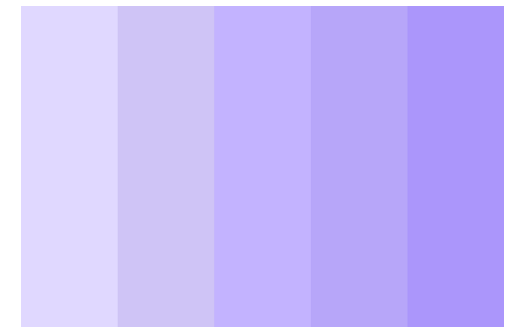

# Term 1

Tone is the lightness or darkness of a colour.

White can be used to make a lighter tone when added to a colour.

Black can be used to make a darker tone when added

Year 1: Investigating Colour

## Year 2

# Term 1

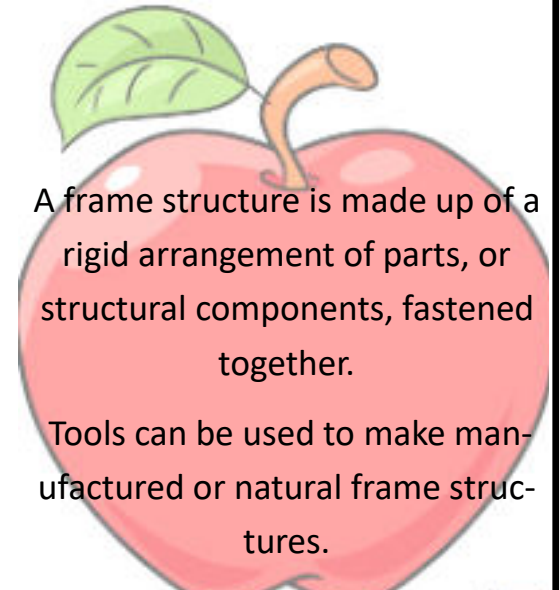

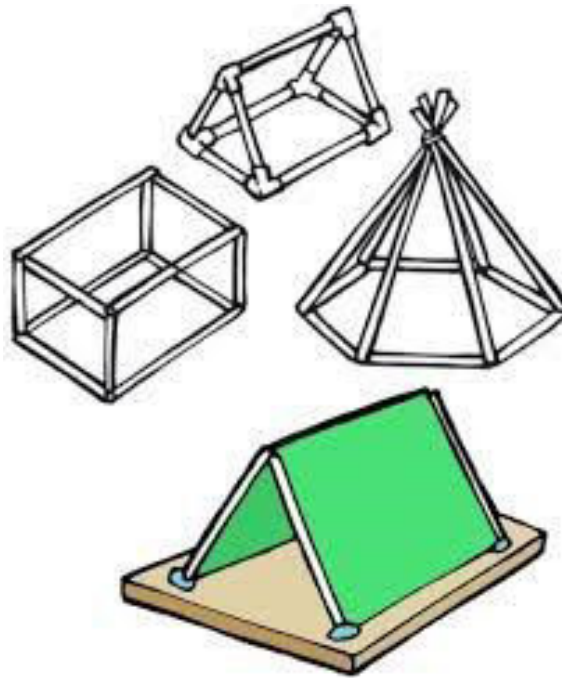

**tools** things we use to help make, cut, join, shape, or finish materials.

**structure** something that has been built and put together to stand strong and do a job.

**frame structure** a structure that is made from parts joined together to form a strong frame.

**fasten** join or fix things together so they stay in place.

**rigid** a material that is hard and stiff — it does not bend or move easily.

A frame structure is made up of a rigid arrangement of parts, or structural components, fastened together.

Tools can be used to make manufactured or natural frame structures.
