Year 4, Term 1 - App Control

Key Vocabulary

Device

An invention or machine used to perform simple tasks or something else made for a specific purpose.

App enabled

An app-enabled product is a product that can be controlled by, and/or send data to, a custom-developed mobile app.

Respond

When you respond to something that is done or said, you react to it by doing or saying something yourself.

Sticky Knowledge

Many every day devices are controlled by apps.

A device and app are connected via Bluetooth/Wi-Fi.

Apps are programmed to allow users to send instructions to a device and for it to respond.
