

All About Super Me - Term 1

Subject Specific Vocabulary	
family	Families can look different, but they all provide love, comfort and a sense of belonging.
different	Not the same as each other.
feelings	A physical reaction to understanding your emotions.
similar	When something/someone is almost, but not exactly the same.
past	Understanding something that has already happened.
present	Understanding that something is happening now.

Sticky Knowledge

Owls hunt for their food at nighttime. They are nocturnal.

Most owls catch mice, worms, and other insects. They have feathers that they use to fly.

Families come in different structures; our class is a type of family.

Respect is learning to take someone else's feelings into consideration and to care for all resources.
